

Columbia Water & Light Residential and Commercial Ground Source Heat Pump Rebate Application

NOTE:
Check the AHRI
Directory EER
Rating for your
new unit before
completing the
purchase.
Sometimes the
manufacturer's
rating can be
higher than the
unit will perform.

A \$300 per ton rebate is available to CW&L residential and commercial customers retrofitting an existing system and/or to residential and commercial new construction.

Both retrofits and new construction must meet building efficiency requirements as outlined in the GSHP Rebate Policy.

Residential GSHP systems are limited to a maximum of 10 tons; Commercial GSHP systems must be less than 50 tons.

A minimum EER of 19.1 is required to receive a rebate.

Checklist

PAID RECEIPT: This application must be submitted with a copy of the paid receipt that lists the model numbers for the system.

PERMITS: A copy of the final mechanical permit from the Building Site and Development Department of the City of Columbia, Missouri, is required. These permits are usually obtained by the contractor.

SIZING: Columbia Water & Light reserves the right to deny a rebate for a unit that is oversized for a building. Either your contractor or the utility can help you with purchasing a properly sized GSHP system.

DEADLINES: The rebate application form and receipts must be submitted to Columbia Water & Light within six months of the GSHP installation. Incomplete or incorrect applications will have thirty days to provide the correct information or risk losing their place in the rebate funding process.

VERIFICATION: Columbia Water & Light reserves the right to inspect the installed equipment before the rebate payment is issued.

Applicant information

Last name _____ Middle initial _____ First name _____

Address of installation _____

Home phone _____ Cell _____ E-mail _____

Mailing address (if different from above) _____

Contractor information

Company name _____
