

Columbia Water & Light Solar Water Heating Rebate Guidelines

Requirements

- This program is available to all Columbia Water & Light electric customers.
- Rebates are offered to customers who install solar domestic water heating systems (DWH) that annually provide 50% (or more) yearly energy use from the sun and use electric resistance heating as the back-up energy source.
- Rebates must be applied for in advance of equipment installation and must receive written approval from Columbia Water & Light as a pre-condition to receiving a rebate offer.
- Columbia Water & Light reserves the right to inspect a project prior to installation and after installation is completed.
- Customer agrees to exclusively grant Columbia Water & Light the right to use all renewable energy attributes arising from the solar DHW system.
- Standard rebate offer for customers already using electric DHW systems is \$400.
- For customers not using electric as their existing DHW system the standard rebate offer is \$800. Solar storage tank must have electric element installed and be connected to an electric circuit. Storage tank must also be first in series plumbing.
- Solar systems must be new and OG 300 certified as tested by the Solar Rating and Certification Corporation (SRCC) in Cocoa, Florida.
- Equipment must be warranted for a minimum period of five years. Customers are required to maintain system in working order for a period of five years (or risk a prorated reimbursement).
- Projects must receive all applicable permits from the City of Columbia and meet all applicable codes.
- Rebate application includes: Project description; SRCC certification and warranty.
- Post installation requires a copy of City of Columbia permit(s) and paid receipt of contractor.

Procedures

1. Customer files an application with Columbia Water & Light
2. Columbia Water & Light inspects property prior to installation (verifies preexisting energy source)
3. Customer receives letter with the rebate offer
4. Customer completes installation and notifies Columbia Water & Light
5. Columbia Water & Light inspects completed project and all needed documentation
6. Columbia Water & Light authorizes payment as approved and check is sent to the customer
