

## Commercial Air Conditioner/Air Source Heat Pump Rebate Policies

- Both owners of commercial buildings and/or the tenants that lease the commercial spaces are eligible for the commercial rebate program. All commercial and industrial customer classifications are eligible. Due to the increased costs of higher efficiency units, the amount of the rebate offered to the customer goes up with a more efficient unit. Units that are sized for commercial use go by the Energy Efficiency Rating (EER) system.
- DUCT WORK: A heating and cooling system duct work inspection will be completed by Columbia Water & Light before the rebate is issued. The utility wants to insure that all supply and return vents that are visually accessible are properly connected. It is commonly found that duct work has been disconnected which creates obvious inefficiency problems.
- These rebates are for prepackaged & split systems. Rebates for smaller units are available under our residential Energy Efficiency Rebate program.
- All retrofits require a mechanical permit from the City of Columbia Public Works Department.

### HVAC Rebate Chart

	11 EER	11.2 EER	11.4 EER	11.6 EER	11.8 EER	12 EER	12.2 EER	12.4 EER
<b>6 tons</b>	\$570	\$660	\$750	\$830	\$910	\$980	\$1,060	\$1,130

### Requirements

- Electric customers on the commercial/industrial rate structure
- Incentives are available to a property owner or customer of active, non-delinquent account
- Rebates are only available for HVAC replacements
- Columbia Water & Light must pre-approve all new systems, customers must submit a commercial HVAC application
- All work must be done by licensed HVAC contractor

- Applicant must provide copy of invoice and duct inspection prior to the rebate being awarded
- A copy of the final mechanical permit is required
- Rebates are awarded on a first-come first-serve basis while funds are available

Columbia Water & Light is not responsible for equipment performance including energy savings or other warranties or guarantees, either expressed or implied  
Columbia Water & Light reserves the right to adjust rebate awards or otherwise amend or discontinue program without notice
